

City of Opa-locka

*Commission Chambers
215 Perviz Avenue
Opa-locka, FL 33054*

SPECIAL COMMISSION MEETING Agenda

**Monday, February 1, 2021
5:30 PM**

City Commission

**Mayor Matthew A. Pigatt
Vice Mayor Veronica J. Williams
Commissioner Alvin Burke
Commissioner Chris Davis
Commissioner John H. Taylor Jr.**

Appointed Officials

**City Manager John E. Pate
City Attorney Burnadette Norris-Weeks
City Clerk Joanna Flores, CMC**

SPEAKING BEFORE THE CITY COMMISSION

NOTE: All persons speaking shall come forward and give your full name and address, and the name and address of the organization you are representing.

There is a three (3) minute time limit for speaker/citizens forum and participation at all city commission meetings and public hearings. Your cooperation is appreciated in observing the three (3) minute time limit policy. If your matter requires more than three (3) minutes, please arrange a meeting or an appointment with the City Clerk prior to the commission meeting. *City of Opa-locka Code of Ordinances Section 2-57*

DECORUM POLICY

Any person making impertinent or slanderous remarks or who become boisterous while addressing the commission, shall be declared to be out of order by the presiding officer, and shall be barred from further audience before the Commission by the presiding officer, unless permission to continue or again address the commission be granted by the majority vote of the commission members. *City of Opa-locka Code of Ordinances Section 2-58*

NOTICE TO ALL LOBBYISTS

Any person appearing in a paid or remunerated representative capacity before the city staff, boards, committees and the City Commission is required to register with the City Clerk before engaging in lobbying activities. *City of Opa-locka Code of Ordinances Section 2-18*

FLORIDA STATUTES, CHAPTER 285.0105:

“If a person decides to appeal any decision made by the Board, Agency or Commission with respect to the proceedings, and that, for such purpose, that person may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.”

CITY OF OPA-LOCKA PROCEDURES FOR VIRTUAL PARTICIPATION AT COMMISSION MEETINGS

Virtual Participation at Commission Meetings

Due to COVID-19 and pursuant to Governor Ron DeSantis Executive Order Number 20-69, the City of Opa-locka has been holding its meetings virtually using the Zoom teleconferencing platform. As of November 2020, the City of Opa-locka will meet in-person with social distancing while still allowing virtual participation via Zoom.

City Commission Meeting location for in-person meetings

In-person meetings will be held in the Auditorium at Sherbondy Village, 215 Perviz Avenue, Opa-locka, Florida, with offsite participants joining by Zoom.

How to watch the meeting

Members of the public are encouraged to watch the public meeting and public hearings at <https://www.youtube.com/user/CityofOpaLocka>

How to participate

For meetings held in-person with virtual participation, members of the public wishing to address the body on any agenda item may do so in person or virtually. **Space for in-person attendance is very limited due to COVID-19 social distancing. Members of the public wishing to address the Commission are strongly encouraged to participate virtually.**

To participate virtually, please register by emailing publiccomments@opalockafl.gov at least 2 hours prior to the scheduled meeting time to request the meeting link.

Providing comments in advance

Those wishing to provide comments on any agenda item are encouraged to do so in advance by submitting their comment via email to publiccomments@opalockafl.gov

Comments on any agenda item must be submitted 2 hours prior to the scheduled meeting time. Comments received after the deadline will be kept for the record, but will not be read during the meeting. If you have comments for more than one agenda item, please state which item you are commenting on.

Reasonable accommodation requests during COVID-19 pandemic

Persons with disabilities who need to request reasonable accommodation(s) to effectively participate in this meeting may contact the Office of the City Clerk. As the City of Opa-locka is currently operating under a Declaration of Emergency relating to the COVID-19 Pandemic, and is practicing CDC recommended social distancing protocols, staff from the Office of the City Clerk may be working remotely.

Persons with disabilities who need reasonable accommodations are asked to e-mail such requests to jflores@opalockafl.gov at least three (3) business days in advance of the need for reasonable accommodation. You may also call (305) 953-2800.

City of Opa-locka public participation and decorum rules

Speaking before the Commission

NOTE: All persons speaking shall come forward and give your full name and address, and the name and address of the organization you are representing.

There is a three (3) minute time limit for speaker/citizens forum and participation at all city commission meetings and public hearings. Your cooperation is appreciated in observing the three (3) minute time limit policy. If your matter requires more than three (3) minutes, please arrange a meeting or an appointment with the City Clerk prior to the commission meeting. *City of Opa-locka Code of Ordinances Section 2-57*

Decorum Policy

Any person making impertinent or slanderous remarks or who become boisterous while addressing the commission, shall be declared to be out of order by the presiding officer, and shall be barred from further audience before the Commission by the presiding officer, unless permission to continue or again address the commission be granted by the majority vote of the commission members. *City of Opa-locka Code of Ordinances Section 2-58*

If the Chair or Commission declares a virtual participant to be out of order, he or she may be muted by the moderator.

All remarks shall be addressed to the Commission as a body and not to any member thereof.

No person, other than a member of the Commission and the person having the floor, may be permitted to enter into any discussion, either directly or through a member of the Commission, without permission of the Chair. No question may be asked except through the Chair.

Speakers should make their comments concise and to the point.

For questions and/or additional information, please contact the Office of the City Clerk at (305) 953-2800 or (786) 877-4038.

5:30 PM

AGENDA

1. CALL TO ORDER:

2. ROLL CALL:

3. INVOCATION:

4. PLEDGE OF ALLEGIANCE:

5. PUBLIC INPUT:
(agenda item only)

6. RESOLUTION:

A) A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF OPA-LOCKA, FLORIDA, ADOPTING THE CITY OF OPA-LOCKA’S 2021 LEGISLATIVE PRIORITY LIST, ATTACHED HERETO AS COMPOSITE EXHIBIT “A”; AUTHORIZING THE CITY MANAGER TO TAKE NECESSARY ACTION TO CARRY OUT THE AIMS OF THIS RESOLUTION; PROVIDING FOR AN EFFECTIVE DATE. *Sponsored by City Manager*

7. ADJOURNMENT:

RESOLUTION

RESOLUTION NO. 2021-

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF OPA-LOCKA, FLORIDA, ADOPTING THE CITY OF OPA-LOCKA'S 2021 LEGISLATIVE PRIORITY LIST, ATTACHED HERETO AS COMPOSITE EXHIBIT "A"; AUTHORIZING THE CITY MANAGER TO TAKE NECESSARY ACTION TO CARRY OUT THE AIMS OF THIS RESOLUTION; PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, the City of Opa-Locka desires to target state funding in order to enhance and improve City streets, parks, infrastructure and programs; and

WHEREAS, the City Manager has recommended a state legislative priority list for the 2021 legislative session; and

WHEREAS, the City Commission of the City of Opa-Locka, Florida desires to adopt the recommended state legislative priority list.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF OPA-LOCKA, FLORIDA, THAT:

Section 1. Adoption of Representations. The foregoing "Whereas" clauses are hereby ratified and confirmed as being true and the same are hereby made a specific part of this Resolution.

Section 2. Adoption of 2021 State Legislative Priority List. The City of Opa-Locka's 2021 State Legislative Priority List, attached hereto as Composite Exhibit "A", is hereby adopted. The City Manager is authorized to take all action necessary to implement the purpose of this Resolution, including transmittal to the proper agencies.

Section 3. Effective Date. This Resolution shall be effective immediately upon adoption hereof.

PASSED and ADOPTED this 1st day of February, 2021

Matthew A. Pigatt, Mayor

Short Title:

A resolution adopting the City of Opa-locka's 2021 Legislative Priority List, authorizing the City Manager to take necessary action to carry out the aims of the resolution.

Staff Summary:

It is in the best interest of the City to seek State funding to assist with enhancing and improving the City streets, parks, infrastructure, and programming.

Financial Impact

State funding of various portions on the City's Legislative Priority List will greatly accelerate the City's plans to upgrade its infrastructure. It is anticipated that there will be extensive Commission travel to Tallahassee in support of this request and there is currently \$3,500 available in the Commission Travel budget.

Proposed Action:

Staff recommends the approval of this legislation and upon adoption staff will take the necessary steps to transmit the City's request to the proper agencies.

1- STORWATER AND ROADWAY IMPROVEMENT PROJECTS

1.1 NW 141st STREET

(BETWEEN NW 22nd AVENUE AND NW 19th AVENUE)

The City of Opa-locka is requesting funding to rehabilitate NW 141 Street from NW 22nd Avenue to NW 19th Avenue. This is a low lying area within the City that does not contain an existing drainage system. This local road floods during any significant rain event which causes safety hazards and nuisance. The flooding and waste water concerns in this area remain an ongoing issue. Over the years, flooding and lack of drainage causes waste water and sewage to accumulate at the intersections.

NW 141 Street is the access road to one of the City's more heavily utilized areas and includes industrial commercial and residential properties. During flooding events, vehicles traversing the area normally carry the waste materials from the site which endangers the health and property of the surrounding neighborhoods. **The current conditions are not only a threat to the health of residents and employees of local businesses, but also endanger the viability of the commercial interests and related activities.**

Project Cost: \$565,385.00

1.2 NW 139th STREET

(BETWEEN NW 22nd AVENUE AND NW 19th AVENUE)

This intersection of a local street with a major county arterial, experiences frequent flooding during typical rain events. This results in water ponding that extends from one side of the street to the other, creating significant nuisances to nearby apartment buildings and businesses. The proposed improvements will address these issues along with stormwater quality improvements by constructing an adequate drainage system and rehabilitating the roadway to provide safe passage to surrounding businesses and connecting thoroughfare.

This project will construct new storm drainage including catch basins with baffles and will discharge into an infiltration system. This project involves the rehabilitation, reconstruction and upgrade of the drainage and the roadway. The flooding on NW 139 Street significantly impacts traffic on NW 22nd Avenue, a major county arterial, which is also the principal access to State Road 9 and several businesses in the area.

Project Cost: \$567,925.00

1.3 NW 19th AVENUE

(BETWEEN BURLINGTON STREET CANAL AND OPA-LOCKA BLVD)

NW 19th Avenue is the access road to the City's mid-range intensity industrial and commercial sector. This area is where various heavy industrial businesses are located. This area is yet another low lying area within the City without an existing drainage system. This local road floods at any frequent rain events and causes a safety hazard and nuisance. The flooding in this area is an ongoing issue. The immediate area does not have an acceptable stormwater drain fields to relieve the local flooding. As a result, public access is restricted, significant safety concerns are created and limits potential economic development is adversely impacted.

Project Cost: \$786,880.00

1.4 NW 20th AVENUE

(BETWEEN NW 139th STREET AND NW 141st STREET)

This street represents other low lying areas within the City that do not contain existing drainage systems. As with similarly situated areas in the City, during the rainy season, major flooding of the roadway occurs to adjacent businesses. The heavy industrial businesses that are located in this area are severely impacted when rain events make travel along the road challenging and dangerous. The funding would enable the City to address these concerns by constructing an adequate drainage system and rehabilitating the roadway to provide safe passage to surrounding businesses and connecting roadways.

Project Cost: \$401,035.00

1.5 NW 20th COURT

(BETWEEN NW 139th STREET AND NW 141st STREET)

This street represents other low lying areas within the City that do not contain existing drainage systems. As with similarly situated areas in the City, during the rainy season, major flooding of the roadway occurs to adjacent businesses. The heavy industrial businesses that are located in this area are severely impacted when rain events make travel along the road challenging and dangerous. The funding would enable the City to address these concerns by constructing an adequate drainage system and rehabilitating the roadway to provide safe passage to surrounding businesses and connecting roadways.

Project Cost: \$398,675.00

2- CANAL IMPROVEMENTS PROJECT

The City was awarded \$700,000.00 for the Burlington Street Canal improvement project; the total cost for the project is approximately \$1.9 million dollars. The 1st phase of the project, which includes about 40% of the total project, is estimated to cost \$700,000.00 but the City does not have any funding for the 2nd phase of the project, which is ready for construction. Burlington Street canal does not comply with required slope per South Florida Water Management District criteria. The Canal has progressive bank erosion which is already impacting the adjacent private properties. The bank is very sharp and uneven and presents a health hazard. The existing condition of the Canal bank has deteriorated as residents are complaining about the threat to their property and public safety. The unprotected Canal bank is degrading the surface water quality and canal is losing its aesthetic view. The Canal bank has to be restored to ensure required slope compliance with the South Florida Water Management District regulations. The slope restoration and stabilization will enhance public safety, address surface water quality and will also protect adjacent properties. The restoration and related dredging will be included in the scope to improve the environmental conditions and also to improve the surface water quality.

Project Cost: \$1,439,800.00

3- DRINKING WATER DISTRIBUTION SYSTEM IMPROVEMENT PROJECT

The City of Opa-locka Drinking Water distribution system is comprised of over 471,000 linear feet of pipeline ranging in size from 2 inches to 24 inches in diameter. The existing piping consists of over 106,000 linear feet of asbestos cement pipe (ACP) and over 260,000 linear feet is 6 inches or less in diameter. The water distribution system of the City of Opa-locka serves the City of Opa-locka, some portion of the City of Miami Gardens and also a portion unincorporated Miami-Dade County, including Miami-Dade College.

Due to the age of the existing infrastructure, the distribution piping has experienced a significant number of failures and is characterized by the presence of cracks which have led to breakage and damage to the pipe segments within the system. These have secondarily resulted in leaks and main breaks in the system adversely impacting on service levels to the residents. The majority of the Drinking Water infrastructure is well past its useful life.

The water distribution system requires an upgrade significant to meet current standards, alleviate tremendous amount of water loss through pipe leaks, replace asbestos/clay pipe, replace old non-functional water valves, replacement and addition of fire hydrants, upsize distribution pipes, reduce dead ends and maximize loops.

Project Cost: \$2,816,000.00.

4- WASTEWATER (WW) SYSTEM IMPROVEMENTS PROJECT

The City of Opa-locka's sanitary sewer collection is comprised of approximately 183,000 linear feet of gravity collection piping with maintenance access manhole structures interspaced throughout the system. The transmission infrastructure comprises approximately 42,300 linear feet of piping and 20 lift stations.

A. SERVICE AREA 16 GRAVITY SYSTEM REPAIRS

The project consists of rehabilitating defects in 6 through 8-inch diameter gravity sanitary sewer pipes by the cured-in-place pipe lining method, at various locations within the City the limits.

This work includes supplementary cleaning of the affected existing gravity sanitary sewers, isolating the reach of sewer to be repaired, inspecting it with closed circuit television (CCTV) then installing a cured-in-place pipe liner and re-inspecting the repaired reach with CCTV. Repairs in non- industrial areas will utilize a polyester resin system. The work in the sewer shall be accomplished through the manholes, without disturbing the street surface or adjacent property or any utility, except when performing excavated point repairs of sewers.

Project Cost: \$1,320,000.00

B. PUMP STATION 4

The existing pump station 4 is running at a very low efficiency due to deterioration of the gravity system. This is causing an excessive infiltration and station is missing required backup power system in case of FPL power failure. The station receives discharge from station 1 and 2 in addition to its service area. Currently the station is running at its maximum capacity and the runtime is about 10 hours/day which is the maximum allowable capacity per Miami-Dade County regulations. A complete rehabilitation of the existing station is required to meet Miami Dade County Standards.

The following activities will be completed in the interest of public health and protection of the environment:

- Rehabilitate existing wet wells
- Install new control panels and telemetry systems
- Install new valve box, valves, and gages
- Line or replace existing manholes
- Line or replace existing sanitary sewer lines

C. ENVIRONMENTAL RESULTS AND BENEFITS OF PROJECT

As a result of the deteriorating conditions of its wastewater infrastructure, the City of Opa-Locka has experienced sometimes experiences discharges of raw sewage from municipal sanitary sewer systems out of manholes and onto city streets, playgrounds and into canal. The manholes and sewer lines have some leakage and may pass a potential health risk to the public. Infiltration of ground water, inflow of surface water, and exfiltration sewage into the ground is an ongoing condition of the existing sanitary sewage system must be corrected in the interest of public health and environmental conservation.

The system currently services residential communities and commercial properties. The City is aware of the health and environmental issues and is currently working on addressing the issues, especially in service area 16 by Rehabilitating the gravity system will not only eliminate potential health risks and sewer back-ups, but will improve the overall hydraulic performance of the service areas, and allow for future development, that is largely suspended as a result of moratorium imposed by Miami Dade County.

Project Cost: \$704,000.00

5- CRIME PREVENTION TECHNOLOGIES

5.1 ADMINISTRATIVE TECHNOLOGY NON-OFFICE AND NON-TRANSPORTATION VEHICLES

The City of Opa-locka has a reputation for crime, both within the community and noted cases of internal government corruption, including issues that have plagued the City's Police Department. As a result, the Opa-locka Police Department and City officials seeks to change that perception with the help of legislative funding to address internal control measures and increase monitoring within the community. Once known as having the highest crime rate in the United States, Opa-Locka's current administration is working to change its relationship within the community and increase accountability among police personnel. However, future improvement requires additional resources and support among the law enforcement agencies, State Legislators and the State's Justice Committee.

According to the National Institute of Justice (NIJ) there are new technologies can offer police many useful methods for combating criminal activity, with such tools as GPS and advanced communications systems. Technologies such as body armor and less-lethal projectiles also improve the safety of both police and the public. However, in an increasingly high-tech world, more and more crimes involve technologies and police must be prepared for them. Its research priorities are based on the needs of the law enforcement community. NIJ both creates new technologies and evaluates technologies on the market for effectiveness and safety. Its evaluation programs are often conducted in real-world environments in partnership with local law enforcement and other outside entities. NIJ is also central in the development of standards for new technologies, such as ballistics standards for body armor. NIJ is committed to helping make new equipment and technology available to police throughout the country. Through outreach programs, NIJ introduces police to new tools and offers a variety of training programs on new technologies. NIJ also provides ongoing technology assistance for police using advanced communications equipment. With the Legislative Priority Funding Request and the criminal violence and crime in our City, the City of Opa-locka desires to be one of the many municipal government police departments that are ahead of the time in safety and security to offers and the community at large.

Project Cost: \$700,000.00

5.2 POLICE STATION AND VEHICLES

The police department provides the residents and visitors to our city with the quality and professional law enforcement services needed. The current fleet of vehicles is 5 to 12 years old and constantly being repaired. The police station building was damaged and the department had to relocate to the City Hall building in Town Center, which brings the department to a disadvantage.

The daily operations such the processing of prisoners, interviews and document sexual offenders or predators are hindered due to the presence of schools in the building.

Due to budget cuts the City has not been able to provide officers an allotment of uniforms, which takes away from our professional look.

Project Cost: \$6,420,000.00

6- YOUTH CRIME PREVENTION

The City of Opa-Locka is in need of assistance to address the issue of truancy and crime prevention within South Florida. The City is ranked as the third (3rd) highest community with schools that have multiple risk factors. These risk factors include, but are not limited to suicide, truancy, juvenile crime, teenage pregnancy, alcohol and drug abuse, and other negative behavior patterns. According to the Association of Supervision and Curriculum Development (ASCD), these risk factors can lead to the detriment of a student's capacity to envision or achieve success. As part of the City's commitment to provide quality Youth Programing that will deter truancy, bullying and other negative behavior among school-age children, funding is being requested to support after school and summer programming, and the production of a skit that will feature the City and students as actors. Early intervention is essential to preventing and deterring, negative behavior and any potential for criminal activity. Out low-income, at risk community is seeking outreach for crime prevention and anti-bullying.

Project Cost: \$250,000.00

7- SENIOR PROGRAMMING

In keeping with the nation's desire to enhance the quality of life for our senior residents, the Senior Program will support high quality low-cost activities and nutrition for senior residents. The program will provide weekly activities through shuttle bus transportation, credentialed and courteous staff services, social interaction, recreational outings, health fairs, exercise and nutrition; this program will minimize service gaps for our senior population that may suffer from depression, anxiety, loneliness and other ailments that plague our elderly residents.

Project Cost: \$250,000.00

8- PARK AND RECREATION DEPARTMENT

The gymnasium is in need of sound proof wall to minimize the noise when conducting community events. Resurface the gymnasium floor and exercise equipment.

Project Cost: \$100,000.00

TOTAL COST			\$861,740.00

POLICE STATION

The police department provides the residents and visitors to our city with the quality and professional law enforcement services needed.

The police station building was damaged and the department had to relocate to the City Hall building in town center, which brings the department to a disadvantage. Attach photographs will show the current conditions of the Police Station. The mold which came as a result of the roof damage caused the department to be moved, fear of employees and visitors getting sick. You will also see an attached article written by the Miami Herald regarding the police station and vehicles.

In Opa-locka Police Department's current location, we are unable to function properly based on the premise that the Municipal Complex is inadequate to house a police agency.

- The department is unable to detain or hold suspects involved in criminal activity
- Hold joint investigative meetings with outside agencies or conduct in house trainings or briefings
- Incapable of communicating with sex offenders/ sex predators in this building to properly process and register
- Police vehicles no longer have a secure compound for security purposes
- We are incapable of properly storing property and evidence according to Florida Department of Law Enforcement standards
- We are housed within a building with minor children and civilians.

However, our community has grown and will continue to outgrow our current police space. The police department is requesting a larger facility to meet the public safety needs of a growing community. Police departments are being closely scrutinized these days for compliance with best policing practices. Adequate space for daily operations will improve policing services and reduce liability for our taxpayers with a secure evidence room, armory and space for the department as a whole.
